Back up your wallet. Create a back-up  
to never lose access to your wallet.

Wallet

Security

Settings

Ci sono 3 step da compiere. Se la procedura può sembrare complessa, MUUN è anche grazie a questa complessità che diventa uno strumento utile per contenere fondi che vanno un po' più in là della pocket money.

### IL PRIMO STEP È ASSOLUTAMENTE DA FARE, PERMETTERÀ IL RECUPERO DEL WALLET A PRESCINDERE.

The screenshot shows the Muun app's Security Center screen. At the top, there is a black bar with the time "00:04", signal strength "4G", battery level "100%", and a circular icon. Below this is a title "Security Center" above a progress bar. The main content area has a heading "Your wallet is not backed up". Three numbered steps are listed in boxes:

- 1 Back up your wallet**  
Create a recovery method in case you change your phone or reinstall Muun.
- 2 Create an alternative backup**  
Write down a code on paper for additional security.
- 3 Create an Emergency Kit**  
Save the information you need to recover your money without using Muun.

At the bottom, there are three navigation icons: "Wallet" (with a square icon), "Security" (with a shield icon, currently selected), and "Settings" (with a gear icon). Below these is a black bar with standard Android navigation icons: a square, a circle, and a triangle.

Step 1 di 4: “START”

00:04

⌚ 4G 1 100%

## Back up your wallet

Use your email and a password to conveniently recover your wallet if you change your phone or reinstall Muun.

[I DON'T WANT TO USE MY EMAIL](#)

START

Step 1 di 4: INSERITE IL VOSTRO INDIRIZZO EMAIL, CHE DOVRÀ NECESSARIAMENTE ESSERE ACCESSIBILE SU UN DISPOSITIVO DIVERSO DA QUELLO CHE OSPITA MUUN

00:05

⌚ 4G 1 100%

← Back up your wallet

1 of 4

Enter your email

You will receive a verification link. [How will Muun use my email?](#)

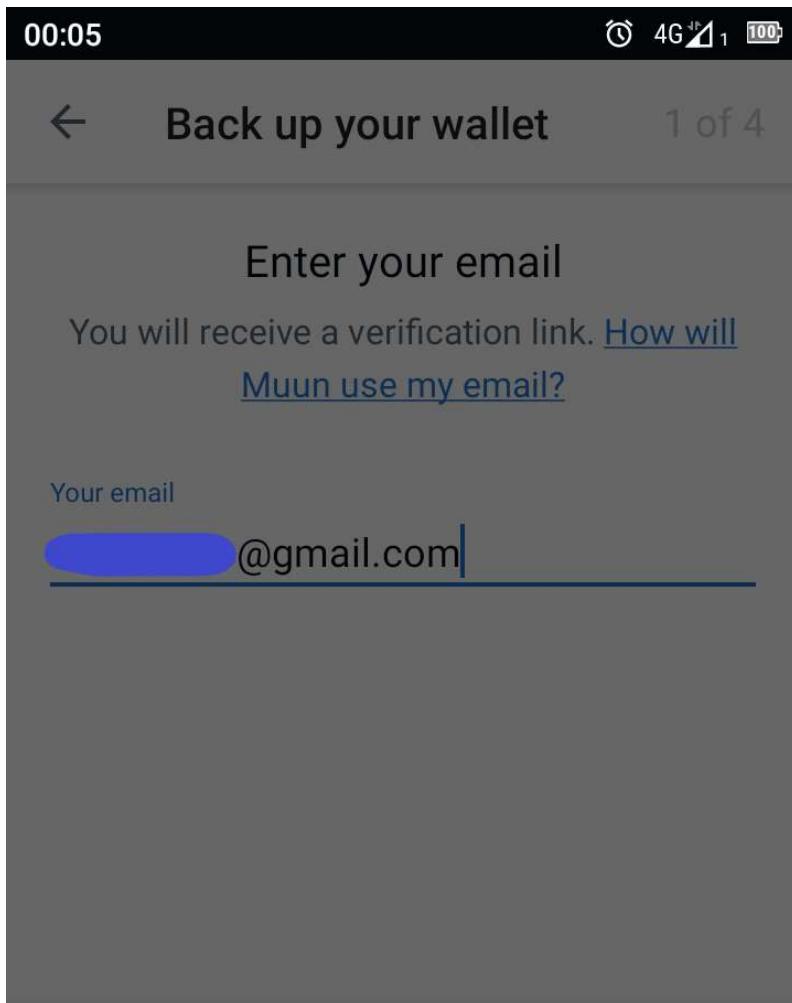

Your email

@gmail.com

CONFIRM EMAIL

Relativamente all'inserimento dell'indirizzo email, date un'occhiata a "***How will Muun use my email?***"

### **How will Muun use my email?**

Muun will send you an email every time somebody tries to access your wallet, asking for your authorization. This protects you from people (or computers) attempting to guess your password.

Step 2 di 4: ANDATE ALLA VOSTRA CASELLA EMAIL PER LA VERIFICA

00:05

⌚ 4G 1 100%

Back up your wallet

4 of 4

### Two things you must understand

- I understand I will need my password and access to my email to recover my wallet.
- I understand that Muun can't reset my password if I forget it.

[Why can't Muun reset my password?](#)

**FINISH**

La prima delle 3 fasi di back up è conclusa, premendo “EXCELLENT”

00:25

⌚ 4G 1 100%

**Success!**

You backed up your wallet, and can now  
recover it using your email and password.

**EXCELLENT**

Come abbiamo già detto, questa prima fase è sufficiente per garantire il recupero del wallet in caso di cambio device o altri imprevisti.  
Il consiglio, però, è quello di completare anche le fasi successive.

## Fase 2: CREATE AN ALTERNATIVE BACK UP

00:26

⌚ 4G 100%

### Security Center

Your wallet has a basic backup

You backed up your wallet

You can use [REDACTED]@gmail.com  
and your password to recover your  
wallet.

2

Create an alternative backup

Write down a code on paper in case  
you forget your password.

3

Create an Emergency Kit

Save the information you need to  
recover your money without using  
Muun.

Wallet

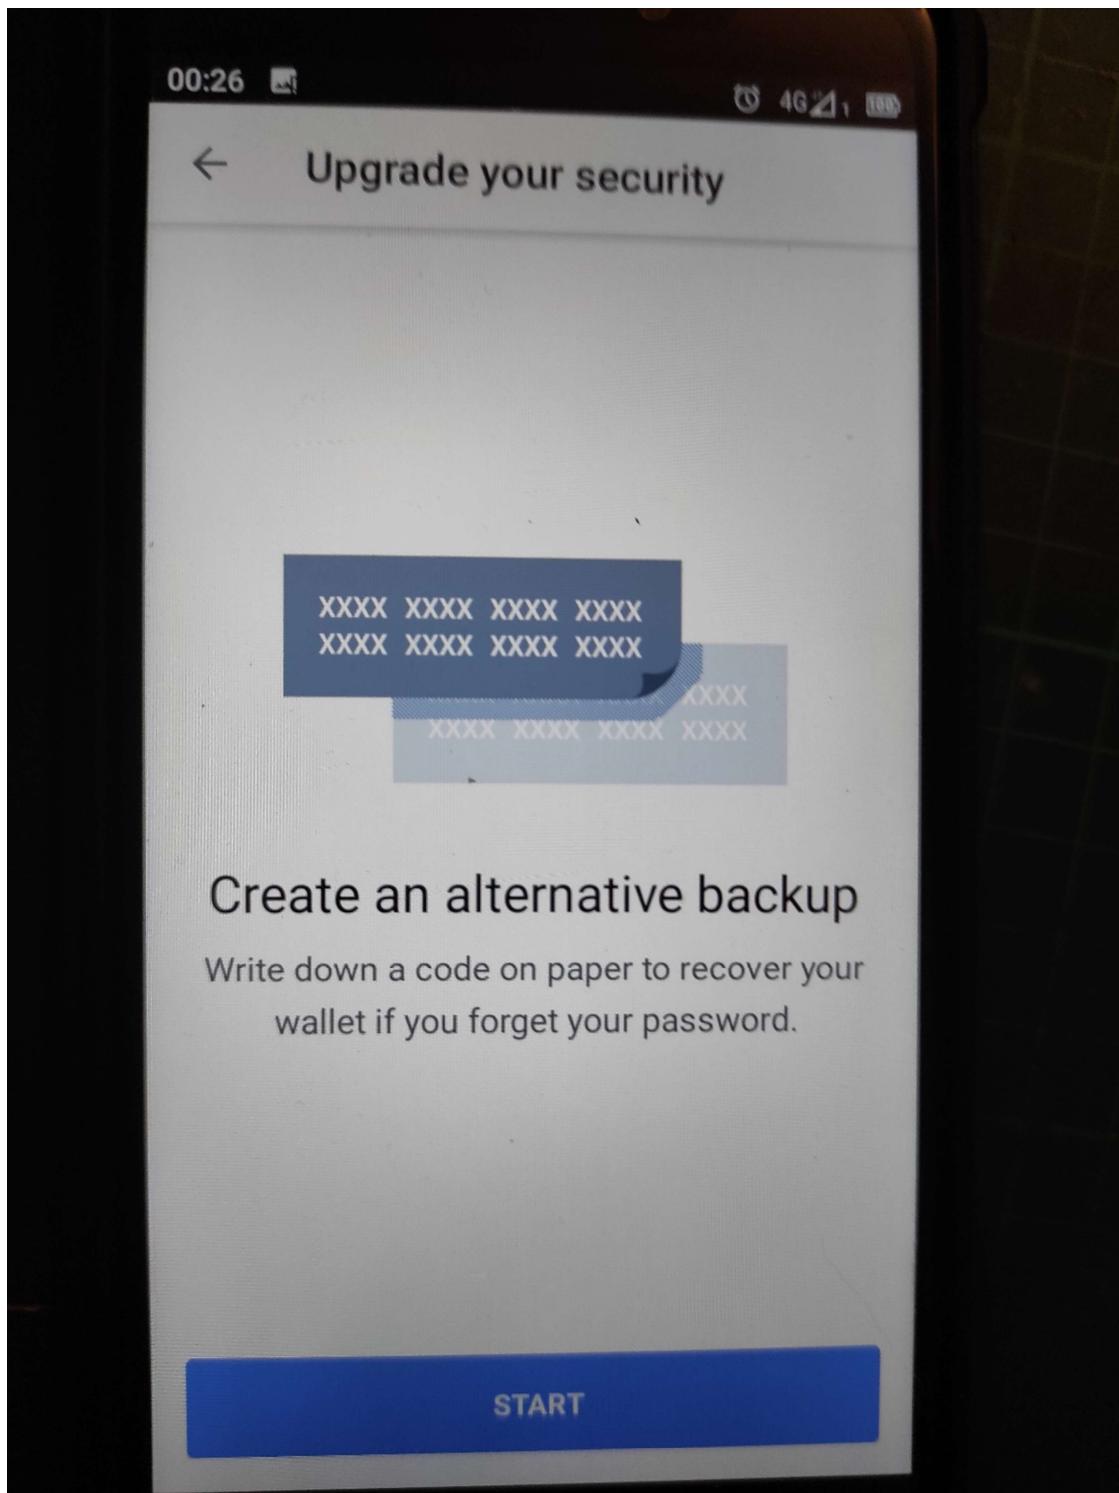

Security

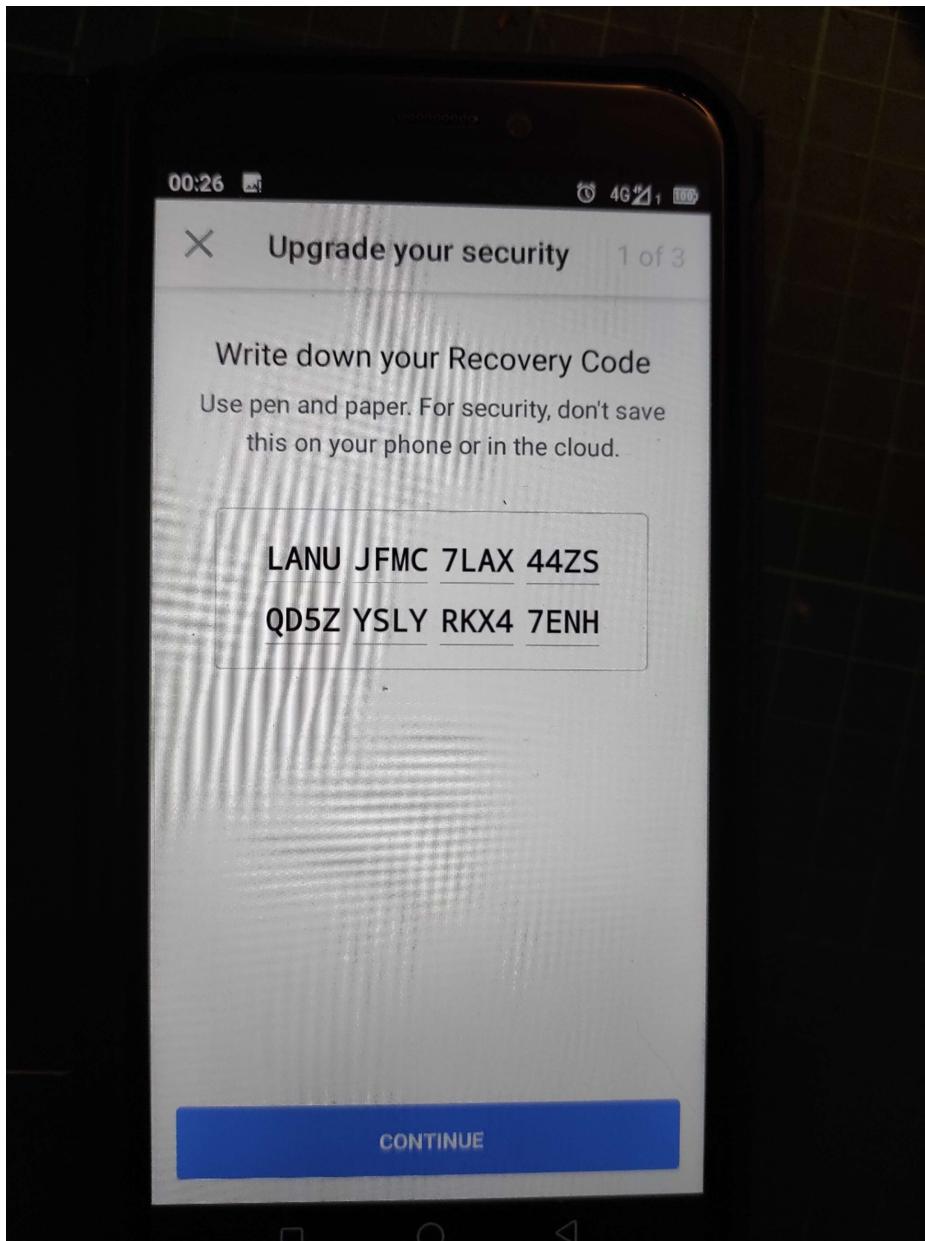

Settings

Step 1 di 3: anteprima dell'upgrade security

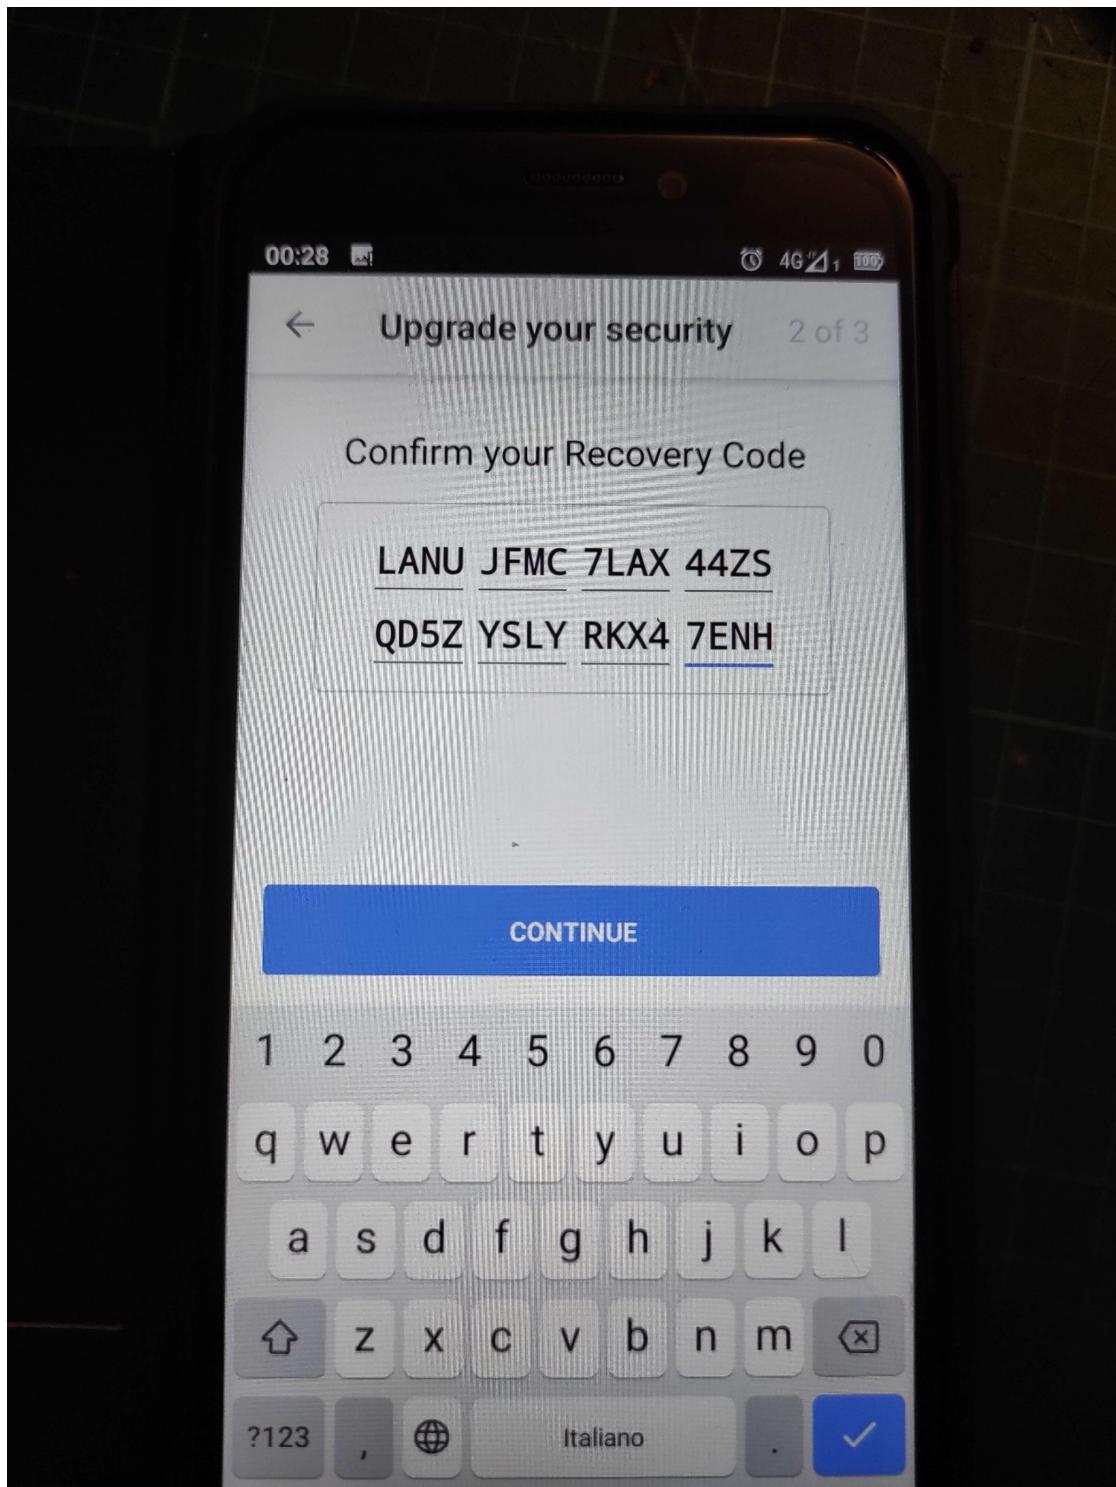

Step 1 di 3: Muun ci mostra una sequenza di codici, che deve essere trascritta in maniera precisa nell'apposito dispositivo cartaceo

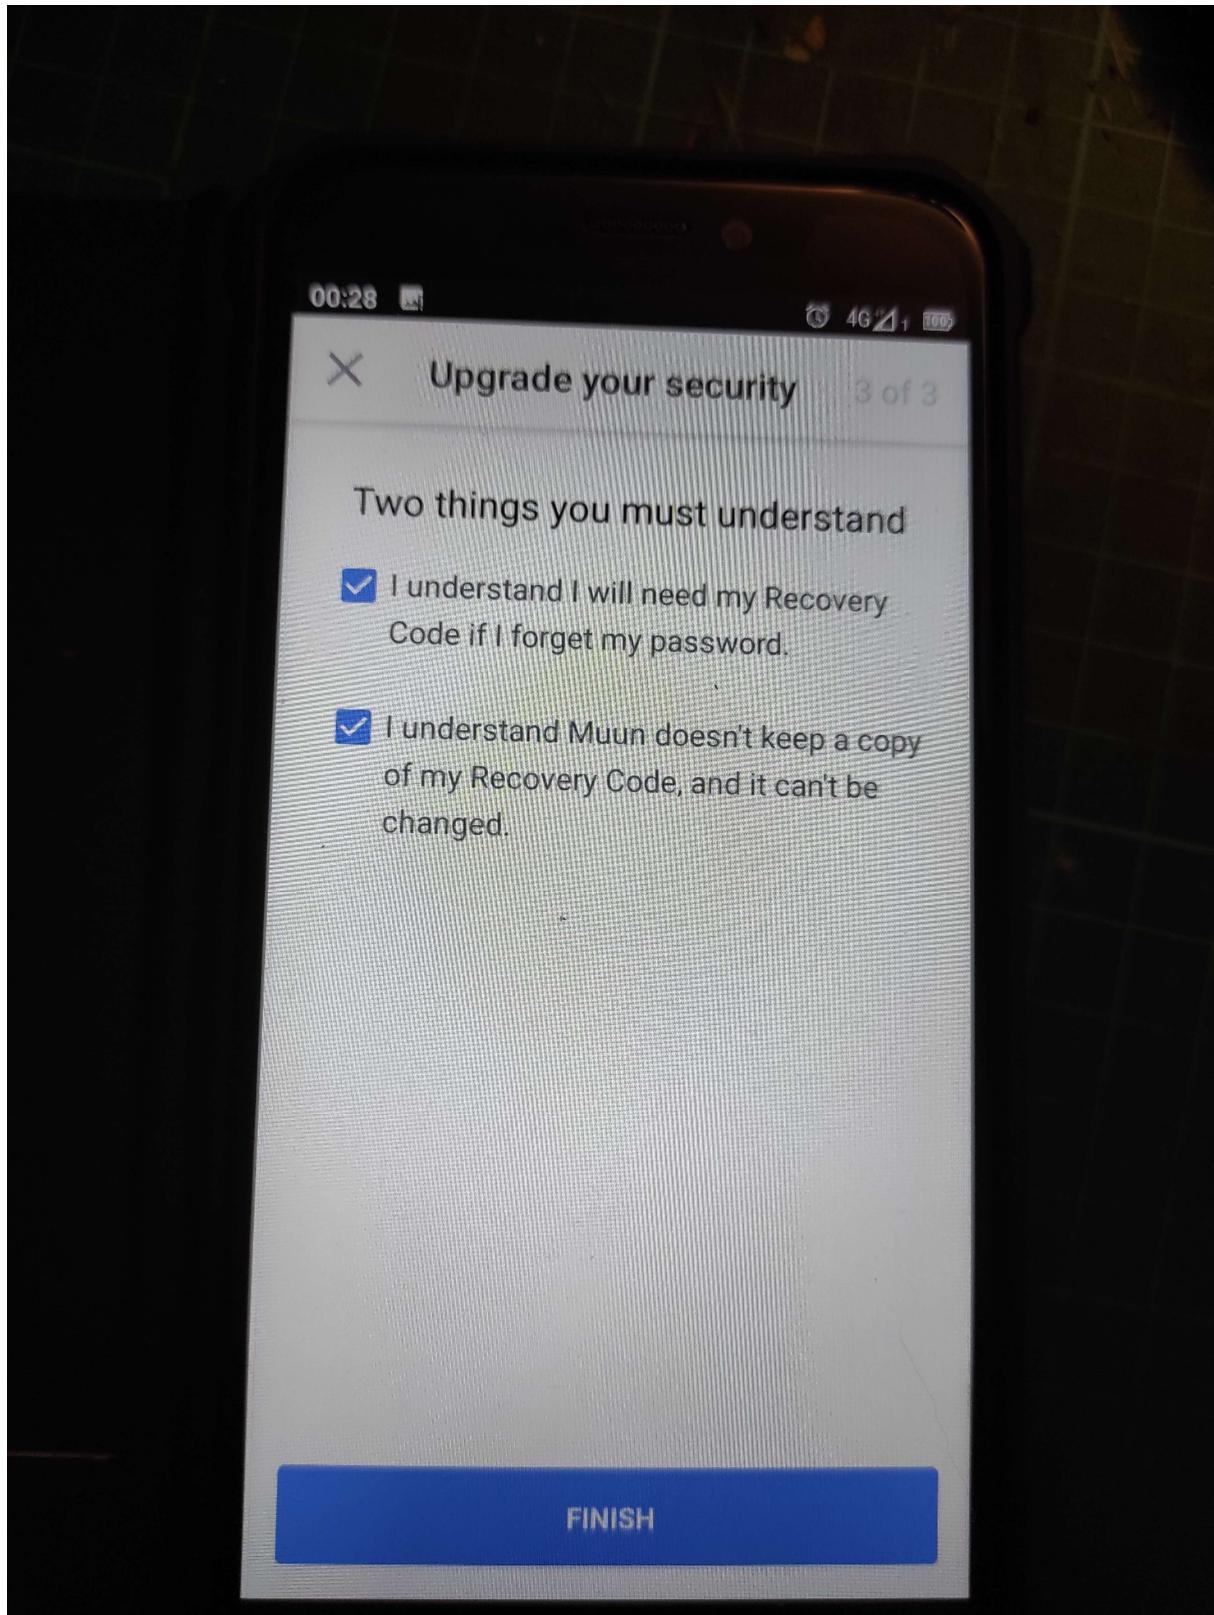

*N.B.: i codici  
qui visibili sono  
da considerarsi  
esclusivamente  
di esempio*

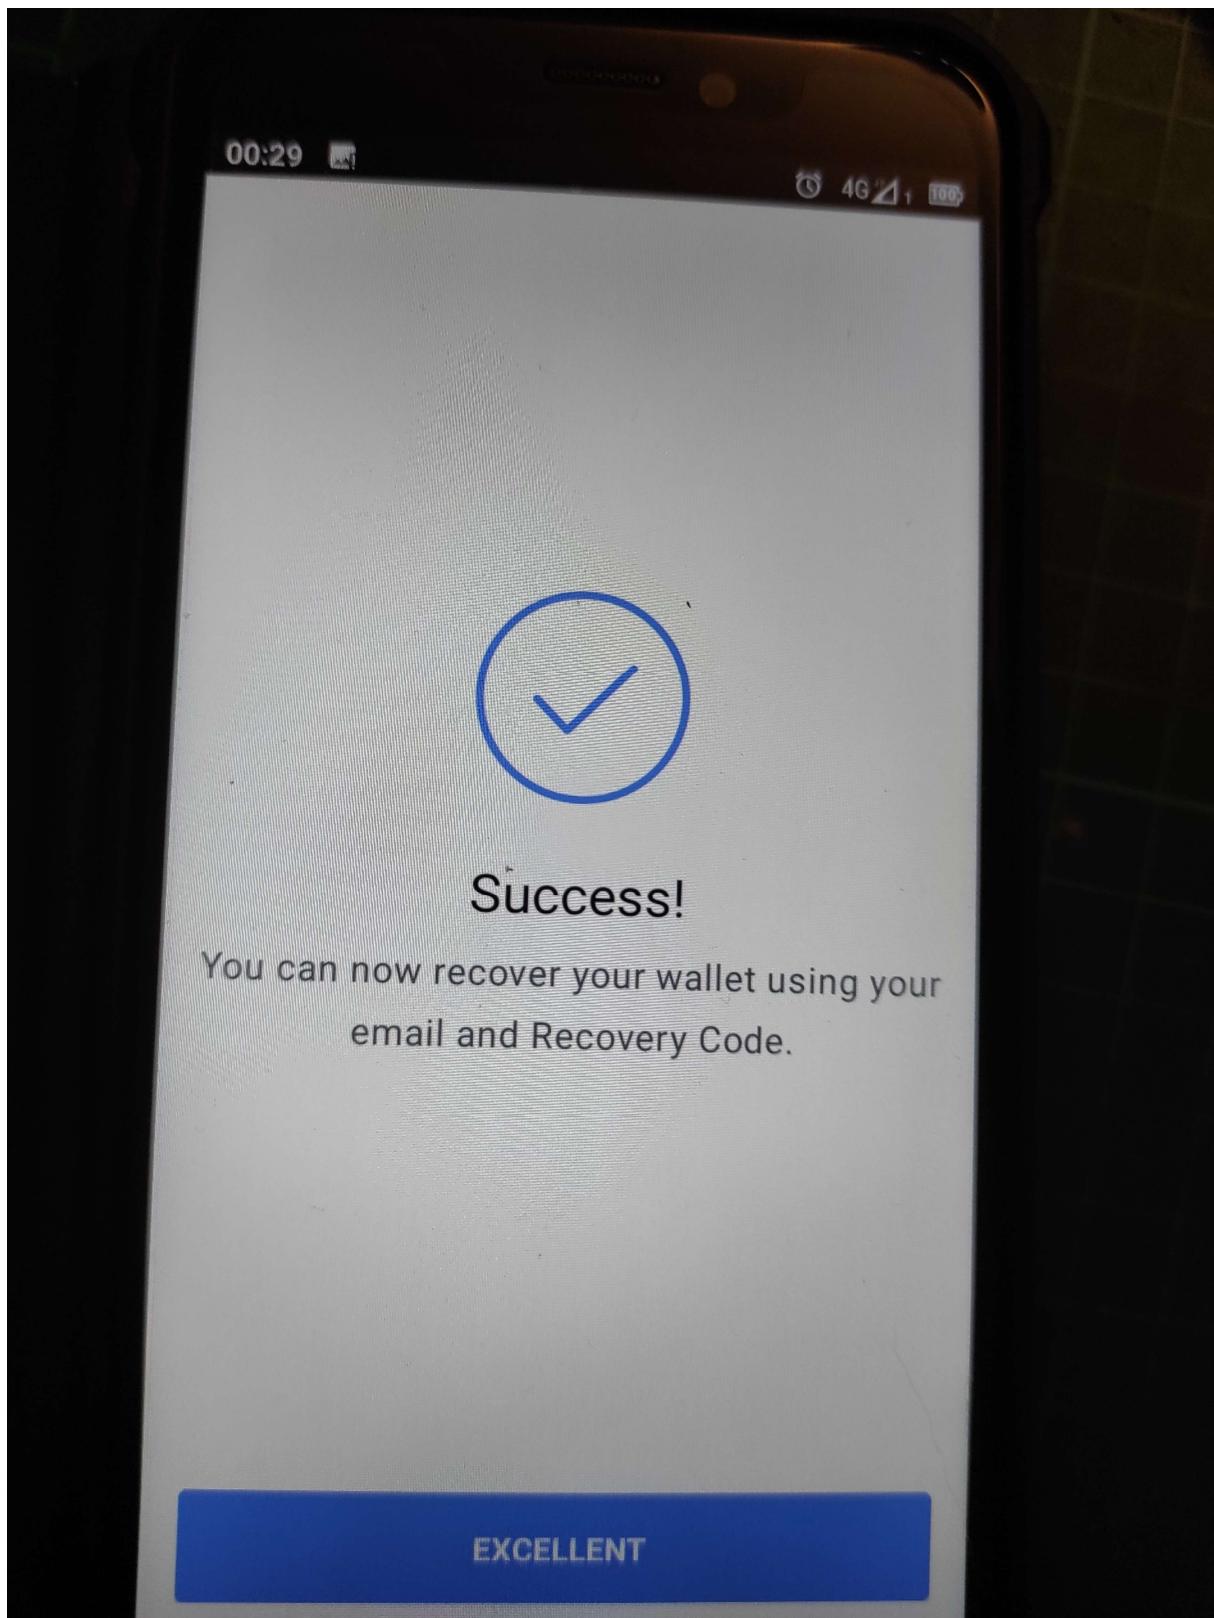

Step 2 di 3: Dobbiamo ritrascrivere il codice in maniera esatta

Step 3 di 3: Se abbiamo trascritto bene i codici, leggere prima di spuntare le nuove voci, per poi premere “**FINISH**”

Si conclude così la seconda fase del back up, cliccando su “**EXCELLENT**”

Affrontiamo la terza e ultima fase di impostazione dei back up, creando un  
“EMERGENCY KIT”

00:29

⌚ 4G 1 100%

## Security Center

You're one step away from a complete setup

You backed up your wallet

You can use [REDACTED]@gmail.com  
and your password to recover your  
wallet.

You created an alternative backup

You can use [REDACTED]@gmail.com  
and the code you wrote down to  
recover your wallet.
